

Simple/Reliable/Green/Efficient

大牧人
Big Herdsman

TYPE A LAYER CAGE

The A-type layer cage series is specifically designed for high-temperature regions, offering cost-effective solutions for chicken farming. The system is simple and reliable, leveraging natural ventilation to optimize environmental conditions and maximize farming efficiency. It can be designed with 3-4 tiers and configured with manure removal and feeding equipment based on customer needs, enabling rapid installation and production.

EGG PRODUCTION

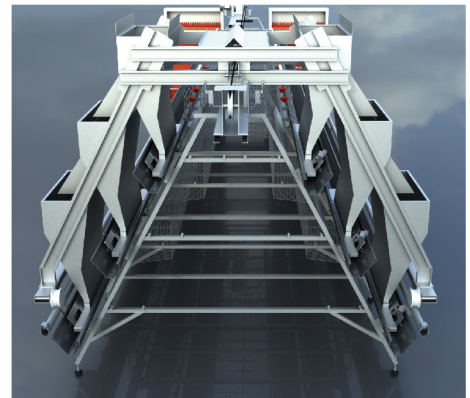

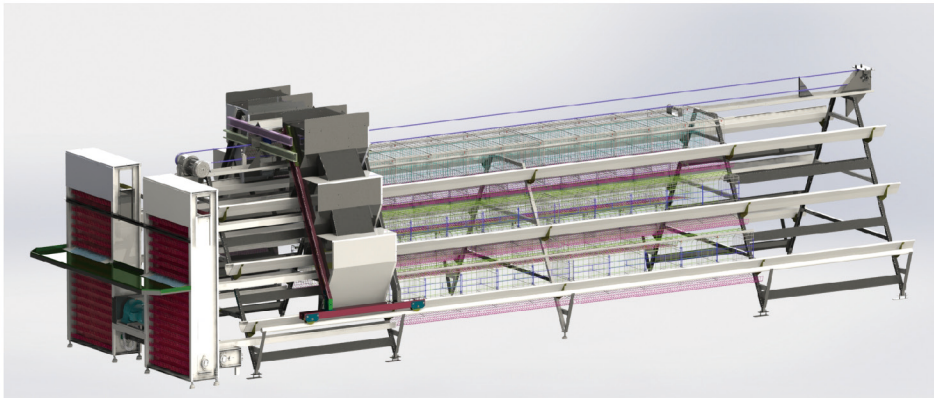

TYPE A LAYER CAGE

- PVC thickened trough, more durable;
- Aluminized zinc wire welding mesh, better corrosion resistance;
- The whole welding galvanized frame, higher strength, better corrosion resistance;
- Auto drinking system, clean, more convenient epidemic

Automatic Layer Cage Equipment

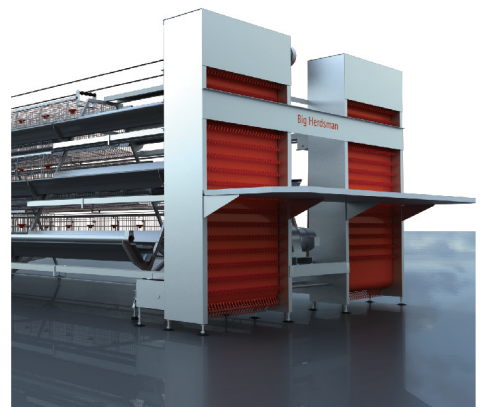

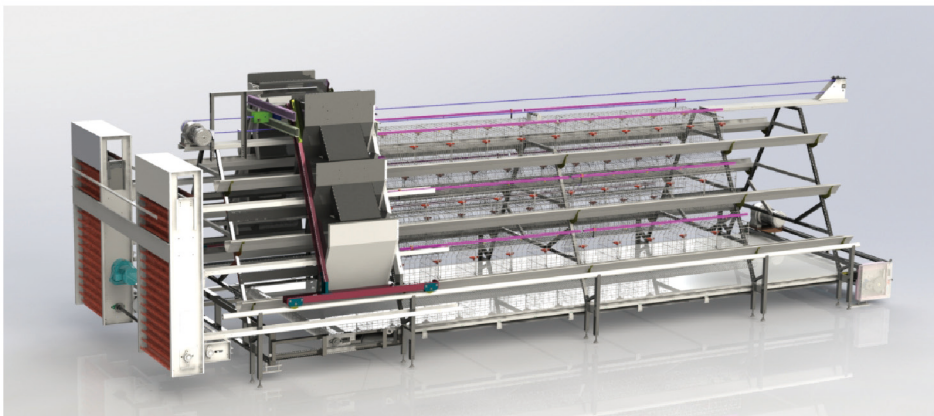

- Automatic egg collection system, low egg breaking rate, high efficiency;
- Hopper trolley feeding, more uniform, better breeding effect;
- Second platform installation, more suitable for open house;
- Optional manure scraper, better breeding effect for closed house.

Automatic Layer Cage Equipment With Auto Manure Cleaning System

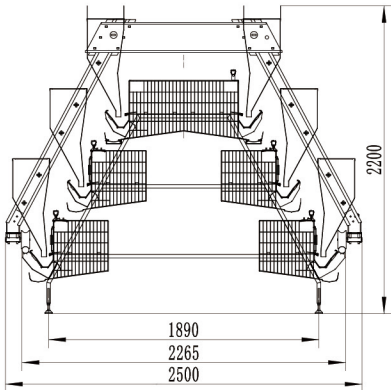

Compared with last mentioned, you can choose manure belt cleaning or manure scraper function.

- Save second platform, only level ground can be used;
- Manure belt cleaning, mature technology, easy to use, can convey manure to the cart directly;
- Manure scraper can convey manure to outside and centralized treatment

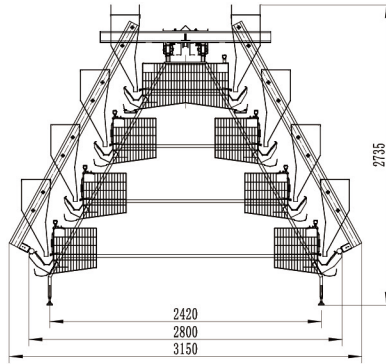

TYPE A LAYER CAGE

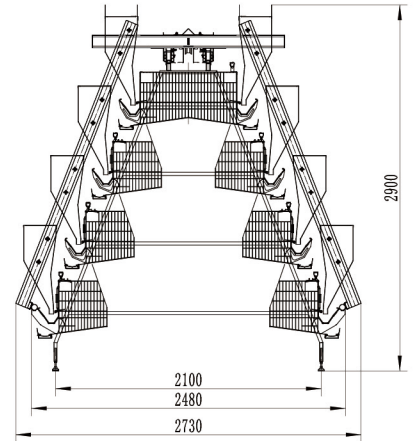

Product Parameters

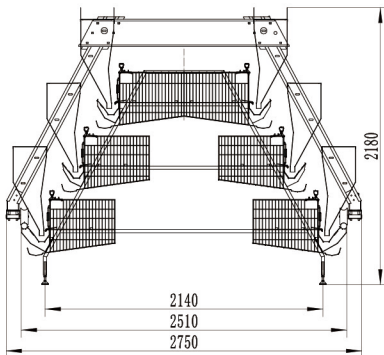

A380 3-storey stepped road-feed laying cage
Free drop manure, optional cleaning belt

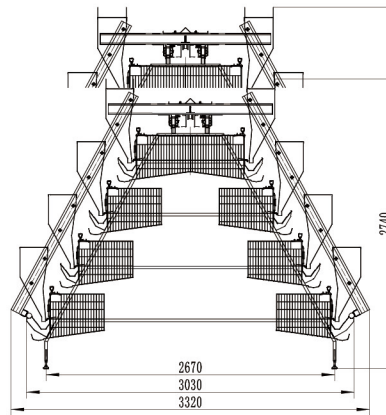

A380 4-storey stepped road feed laying cage
Free drop only available

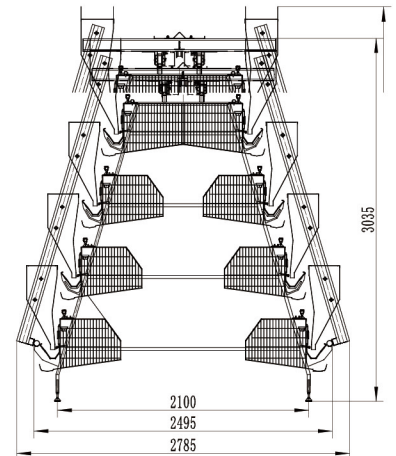

A380 4-storey stepped road feed laying cage
Free drop manure, optional cleaning belt

A500 3-level step road feed laying cage
Free drop manure, optional cleaning belt

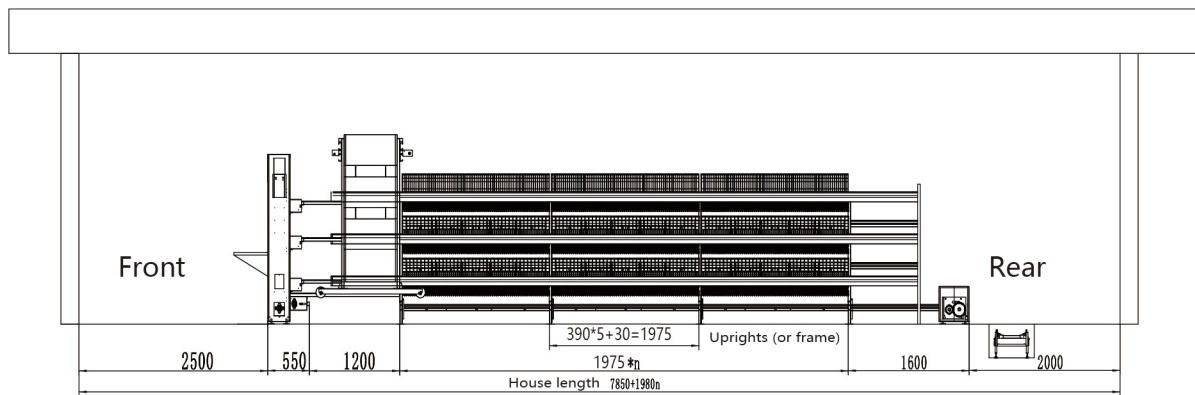

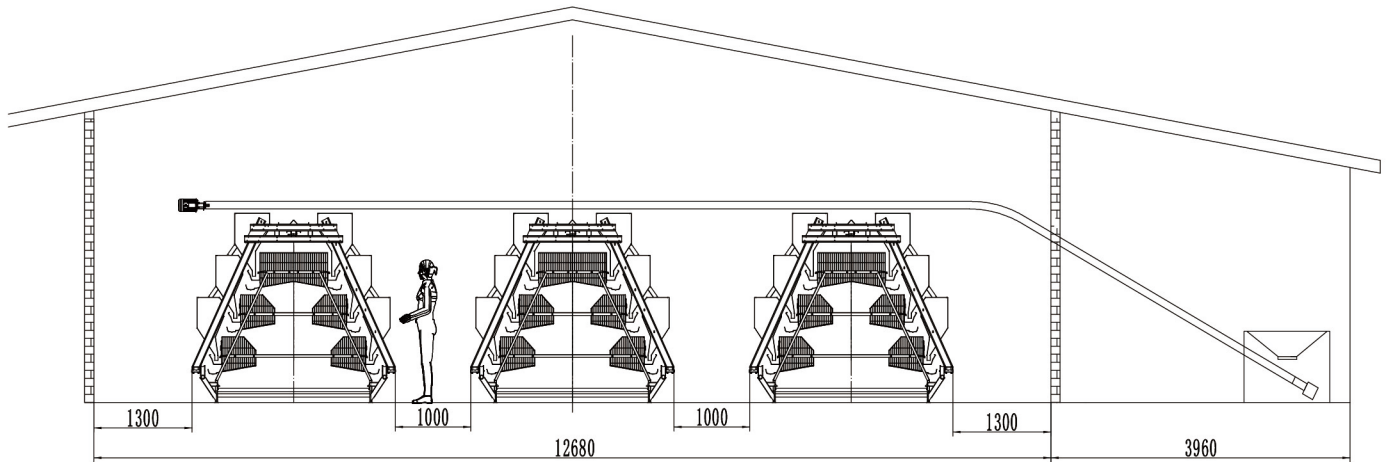

A380 4-storey stepped road feed laying cage
Free drop only available

A500 4 level step road feed laying cage
Free fall manure removal belt is available
